

Climatic test chambers

for pharmaceutical sector

Human health, veterinary, biotechnology, dermoesthetic, diagnostic and hospital material

Monitored storage according to ICH standards, registers according to FDA 21 CFR, part 11.

Forced, intermediate and accelerated stability.

R+D+I studies in areas of development and simulation in pharmaceutical technology.

Modular climatic chambers

Description

Equipment for stability and/or photo-stability tests according to ICH and FDA standards.

Dimensions and volumes according to the client's needs.

Compact

Standard volumes
300, 600 and 1200L.

*Other volumes on request

Touch screen

Technical characteristics

Temperature range	A: From +5°C to +60°C (climatic) B: From 0°C to +30°C (conservation) C: From -30°C to +30°C (freeze)	
Humidity range	10-98%	
Accuracy	Temperature ± 0,5°C	Humidity ± 2% R.H.
Stability	Temperature 0,3°C max	Humidity 2% R.H. max
Resolution	Temperature 0,1°C	Relative Humidity 0,1%
Homogeneity	Temperature ± 1°C max	Relative Humidity ± 2% max

Fast and easy programming

Touch screen

Software according to FDA 21 CFR, Part 11 standard

ICH and FDA validation

Ethernet and Wi-Fi communication

Remote connection

Radiation: Modular and compact

Description

Climatic chamber of ICH and FDA pharmaceutical stability for constant conditions of temperature, humidity and UV radiation.

Radiation through UV fluorescent lamps according to ISO 10977, spectral distribution from 200 nm to 800 nm.

Special equipment

Climatic chambers for testing on products subjected to pressure or solvents (ATEX)

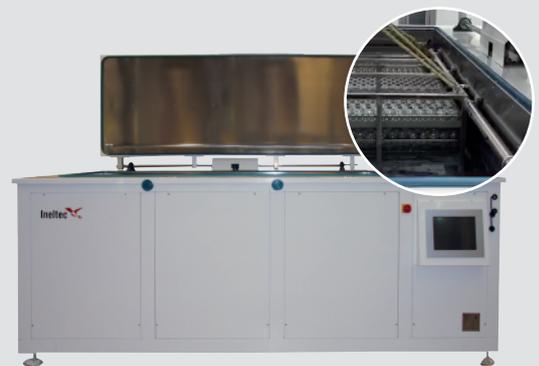

Heaters of sterilization type FIFO

Special drying chambers according to client requirements

Chamber with viewing window and access holes with gloves for product handling

Thermostatic baths of high stability for product treatment

Experts in the design and manufacturing of simulation and test equipment

Ineltec is a company with 30 years of experience in the sector with a big amount of equipment installed all over the world. The achievements are due to the ability of offering tailored made solutions to perform any kind of test.

Each one of the projects starts with a strong analysis of all the details so it can be provided a customized answer which is the most efficient and affordable solution.

It is a great pride for Ineltec that clients from all the industrial sectors consider them as experts on giving tailored solutions and solving all the challenges no matter how complex they are.
